## Sea Technology magazine

A monthly publication for professionals working in the ocean/marine/offshore field—presenting significant trends and authoritative news in columns, departments, and editorials. Technical news reporting is combined with scientific and engineering features. State-of-the-art reports by authorities in the fields of ocean engineering, undersea defense, marine electronics, ocean research, offshore petroleum exploration and production, undersea mining, marine pollution, fisheries, coastal zone management, shipbuilding, marine transportation, undersea construction, and equipment development. 12 issues per year.

- One year, domestic—\$60.00
- Two years, domestic—\$80.00
- One year, First-Class (USA only)—\$88.00
- One year, Canada, Mexico, and foreign standard (sea mail)—USD 78.50
- One year, airmail, Canada—USD 93.50
- One year, UPS air, foreign—USD 129.50
- Single Copies (current issue) — \$4.50 plus shipping & handling
- Single Copies (back issues) — \$6.00 plus shipping & handling

## Sea Tech e-News

Every other week, we e-mail *Sea Tech e-News* subscribers a summary of the latest and most important government and industry news in the marine market. We will also feature the latest product releases, information on new hires and promotions, and a calendar of ocean-related meetings and workshops.

The frequency of the e-newsletter gives subscribers a steady stream of information edited down to what matters most. We'll also occasionally feature selected magazine content in the e-newsletter before you'd get the issue in the mail.

*Sea Tech e-News* is free and you can cancel at any time. If you have feedback, suggestions or content you'd like for us to include in the newsletter (such as meetings and breaking news), please e-mail us at [enews@sea-technology.com](mailto:enews@sea-technology.com). For information about advertising in *Sea Tech e-News*, contact our advertising staff at [seatechads@sea-technology.com](mailto:seatechads@sea-technology.com).

## Sea Technology Buyers Guide/Directory (2014 Edition)

The only complete directory serving the ocean/marine/offshore community. Updated technical articles and industry reports, listing of manufacturers, cross index of products and services available, ocean research vessels, geophysical survey vessels, and educational institutions . . . This volume is a standard reference for the ocean community—who makes what, where to buy it, names, addresses, phone numbers . . . Covers ships, structures, propulsion systems, power plants, electrical equipment, ordnance, detection systems, navigation and positioning, communications, instrumentations, test equipment, computers, data processing, basic materials, marine hardware, deck gear, life support and safety equipment. Updated annually.

- U.S.A: First-class mail — \$56.00
- CANADA: First-class mail — USD 59.00
- ALL OTHERS: Airmail printed matter — USD 64.00
