Washington Letter of Oceanography

The established bi-weekly newsletter written to keep you abreast of the ocean/marine scene. Comprehensive, concise, exclusive, and factual news on plans and programs in both government and industry. Marketing information, legislation, contracts, proposals, and interpretations of significant news in the ocean/marine field. A must-have newsletter for program managers and marketing personnel. Available as an e-mailed PDF. 26 issues per year.

Sea Technology Buyers Guide/Directory (2009 Edition)

The only complete directory serving the ocean/marine/offshore community. Updated technical articles and industry reports, listing of manufacturers, cross index of products and services available, ocean research vessels, geophysical survey vessels, and educational institutions . . . This volume is a standard reference for the ocean community—who makes what, where to buy it, names, addresses, phone numbers . . . Covers ships, structures, propulsion systems, power plants, electrical equipment, ordnance, detection systems, navigation and positioning, communications, instrumentations, test equipment, computers, data processing, basic materials, marine hardware, deck gear, life support and safety equipment. Updated annually.
